Activities to do with Students

Wondering what to do with your student? The options are endless! Students want to experience American culture, become familiar with their new city, and share their culture with you. They also LOVE quality time and eating (this is universal), so a simple dinner invitation is a great place to start (remember to ask about dietary restrictions). After that, ask your student what they would like to do! They usually have a bucket list.

More Ideas

- Eat at one of your favorite restaurants or cafes
- Eat at a restaurant serving your student's national cuisine
- Take your student grocery shopping - ask if there's a store that offers items from their home country they'd like to visit
- Cook a meal together - share a family recipe or learn a dish from their culture
- Share your favorite hobby with them
- Go on a hike or walk together
- Try a new coffee/tea shop or show them your favorite
- Invite them over for tea or coffee
- Invite them over for family game/movie night
- Attend a sporting event together - including your kids' matches
- Invite them over to watch the game on TV
- Invite them over for a pool party

The best way to make a student feel at home is to invite them into your everyday life. It doesn't need to be fancy or extravagant!

International FRIENDSHIPS
